Purinergic Signalling from Cell Biology to Oncology

Aula F9, chiostro di Farmacologia 23/02/2015

14.00-14.15 **Elena Adinolfi**, Dipartimento di Morfologia, Chirurgia e Medicina Sperimentale, Università di Ferrara:

“Brief introduction to purinergic signalling in oncology”.

14.15- 14.45 **Ruth Murrell Lagnado**, Department of Pharmacology, University of Cambridge:

“P2X4 and P2X7: their regulation and involvement in lysosome function”.

14.45- 15.15 **Sébastien Roger**, Département de Physiologie Animale, Université François-Rabelais de Tours:

“P2X7 receptors in the invasive properties of breast cancer cells”.

15.15-15.45 **Alison Gartland**, Mellanby Centre for Bone Research, University of Sheffield, UK:

“P2 receptors in breast cancer metastasis”.

15.45-16.00 **Francesco Di Virgilio**, Dipartimento di Morfologia, Chirurgia e Medicina Sperimentale, Università di Ferrara:

“Concluding Remarks”.
