One Health-Knowledge Café Presents

Webinar

Vaccine for COVID-19 Updates, Hopes, Issues and Considerations

30 September 2020 | Wednesday | 1:30PM-3:00 PM GMT

7:15PM NPT | 3:30PM CET | 6:30AM PST

Webinar Description:

A vaccine against SARS-CoV-2 is claimed as the only solution which could bring our lives back to normality. An unprecedented number of scientists, industries and institutions are currently involved in this quest. The pressure for the discovery of a safe and effective vaccine in a dramatic short-time frame is huge, posing several scientific and ethical challenges.

All these aspects will be discussed with **Florian Krammer, Barney Graham, Holden Thorp** and **Mkunde Chachage**. This international panel of top-level experts will guide us through the achievements and challenges of the COVID-19 vaccine research race.
